Market Commentary:

The EGX30 remained under stress as most of the stocks declined pulling the index lower closing in red but remained able to defend the minor support level 11450. Yet, levels are the same and so for our outlook

Trading should be very selective and conservative keeping close stops placed and respected to reduce market risk.

Notice that the mentioned support zone should be respected in any decline as any violation to it will indicate that bears are in control further decline will follow.

Commercial international bank (COMI.CA):

Prices remained flat closing in red again slightly above the resistance level 51.60 which still needs confirmation so everything is considered in place.

As we said, confirming below 51.60 will lead to further decline to the coming support 49.80 so watch carefully and wait for a confirmed buy signal to react safely on.

Support levels: 49.80, 46.70
Resistance levels: 51.60, 52.80

Hermes Holding (HRHO.CA):

Prices inched higher closing above the important resistance level 14.45 but still needs confirmation so everything is considered in place.

We recommend to partially take profit on current levels bearing in mind that clearing the important resistance level 14.45 will easily push prices higher to our 2nd target 15.65 and may extend to the resistance level 16.35.

Support levels: 13.40, (12-75-12.60)
Resistance levels: 14.45, 16.35

El-Ezz steel rebar's' (ESRS.CA):

Prices managed to close back above the resistance level 13.20 and soared higher reaching the 2nd resistance level 13.80 closing slightly above which therefore restore the bullish short term view. Confirming above 13.80 leads to further climbing to 14.50 where short term trades opportunity emerges.

The support level 12.00 should always be watched in any decline to avoid any risk.

Support levels: 13.20, 12.00
Resistance levels: 13.80, 14.50
