Market Commentary:

The EGX30 closed back below our major resistance level 11675 as selling pressure took place in most of the stocks closing near the day's low leaving everything in place.

Confirming above the mentioned level only will turn the medium term trend up and targets will be 12250 & 12850, while short term, targets will be 11900 & 12070.

Trading should be very selective and conservative keeping close stops placed and respected to reduce market risk.

Notice that the mentioned support zone should be respected in any decline as any violation to it will indicate that bears are in control further decline will follow.

Commercial international bank (COMI.CA):

Prices remained narrowly flat closing slightly negative keeping levels unchanged and so for our outlook. As we said, the breakout will lead to rally to the previous reached high 54.15 (minor resistance zone).

Clearing the mentioned levels will set new targets at 55.70 & 57.70 where we may trade gradually on.

Until this happens, short term trades could be tried on the previous mentioned levels.

Support levels: 51.60, 49.80

Resistance levels: 52.80, 54.15

Hermes Holding (HRHO.CA):

Prices closed slightly negative after failing to continue the early rally attempt ahead of trading leaving everything in place.

As we said, our 2nd target level 15.20 is expected to be hit and may extend to the resistance level 16.35.

Trading partially on the mentioned levels could safely be tried keeping protective stop placed and respected below 14.45.

Support levels: 14.45, 13.40

Resistance levels: 16.35, 17.40

El-Ezz steel rebar's' (ESRS.CA):

Prices inched higher reaching our expected level 14.50 closing slightly where as we said short term trades opportunity emerges. Notice that confirming above 14.50 will lead to the next strong resistance level 15.65 bearing in mind that 15.00 represents minor resistance.

We recommend to keep protective stop placed below 13.80.

Support levels: 13.80, 13.20

Resistance levels: 14.50, 15.65
