Market Commentary:

The EGX30 witnessed another slight upward move reaching our important resistance level 11200 trading slightly above but selling pressure took place keeping the close below leaving everything in place.

Trading flat within the mentioned levels is still expected where we may conservatively use for quick trades keeping close stops. Yet, levels are still the same and so for our outlook, the upside expectations will only be by clearing 11200.

It is very important to watch any violated stop to avoid any further decline while new positions are advised to wait for a confirmed buy signal to react safely on.

Commercial international bank (COMI.CA):

Prices remained narrowly flat as quiet balanced performance still dominates closing slightly negative keeping everything in place. As we said, bears gained back the short term technical advantage by violating the support level 46.65 which acts now as resistance.

We recommend staying on cash watching the coming support level 44.70 where we may open new trades on but should be supported by confirmed positive signals to react safely on.

Support levels: 44.70, 42.30
Resistance levels: 46.65, 48.80

Hermes Holding (HRHO.CA):

Prices climbed higher trading within our mentioned resistance zone where the move halted closing below keeping levels unchanged and so for our outlook.

Existing positions are advised to hold keeping stops placed and respected below 11.25 as any decline below will give back the hand to selling party.

Support levels: 12.10, 11.70
Resistance levels: (12.60-12.75), (13.25-13.40)

El-Ezz steel rebar's' (ESRS.CA):

Prices witnessed a failure attempt to clear our mentioned resistance zone but closed slightly above it's lower boundary so everything is in place.

As we said, our Protective stop should be activated as reaching the previous reached low is expected near 13.80 any may extend reaching our support level 13.40.

New trades are advised to wait for a confirmed buy signal to react safely on.

Support levels: 13.40, 12.30
Resistance levels: (14.40-14.65), 16.00
