Market Commentary:

The EGX30 witnessed a slight upward move approaching the mentioned resistance level where selling pressure took place from pulling the index back losing a fair portion of the day's gains closing within the same range keeping our outlook the same.

As we said, bears gained the near term technical advantage and therefore further decline will follow to the next support level 11230 where we believe will represent a good buying opportunity.

Commercial international bank (COMI.CA):

Prices closed flat within the same range with a light positive change keeping levels the same and so for our outlook. Strength signals again occurred on the intraday suggesting bouncing higher from current level but should be confirmed by price action along with increasing trading volumes. Protective stop should be placed below 60.00.

Support levels: 60.00, 58.50
Resistance levels: 63.00, 64.50

Hermes Holding (HRHO.CA):

Prices remained narrowly flat after quiet trading performance closing within the same range. As we said it is very important to defend the mentioned zone to prove that buyers are still in control. New target zone within 16.60-17.10 where we believe it represents strong retracement level where may use trade on. Close stops should always be placed and respected to protect the downside.

Support levels: 15.55-15.25, 14.60
Resistance levels: 16.60-17.10, 17.80

El-Ezz steel rebar's' (ESRS.CA):

Prices witnessed an upward move reaching our resistance level 10.60 where selling pressure took place on keeping levels unchanged and so for our outlook. As we said, we may close our sold positions after the violation of 10.60 bearing in mind that any violation to the mentioned support will keep prices under further stress and lower levels will be expected.

Support levels: 9.80, 8.90
Resistance levels: 10.60, 10.90
