Market Commentary:

The EGX30 extended sharply lower as selling pressure dominated till the end of the day closing the index below the important support level 10700 turning it into resistance which as we said will keep the market under further stress. New opened short term trades and old positions are advised to watch their stops very carefully as violating the mentioned level risk is elevated which increases the downside potential. New trades should wait for a confirmed buy signal to react safely on.

Commercial international bank (COMI.CA):

Prices gapped down ahead of trading and continued lower violating the major support level 58.50 closing below after gaining a fair portion of today's losses. 2nd day close is needed to confirm the violation where as we said bears will gain the short and medium term technical advantage.

Support levels: 58.50, 56.70
Resistance levels: 60.00, 63.00

Hermes Holding (HRHO.CA):

Prices gapped down ahead of trading and continued narrowly flat hovering around the support level 14.60 closing slightly below but still considered in place. Yet, rally is still expected which as we said will probably reach our coming mentioned resistance zone. Close stops should always be placed and respected to protect the downside.

Support levels: 14.60, 13.50
Resistance levels: 15.25-15.55, 16.10

El-Ezz steel rebar's' (ESRS.CA):

Prices remained narrowly flat closing within the same range as quiet trading performance dominated keeping our outlook the same. Short term trades may be opened on current levels as further climbing will probably take place testing the resistance level 9.80 where we may use for quick trading bearing in mind that close stops should be placed and respected

Support levels: 8.50, 7.50
Resistance levels: 9.80, 10.60
