Market Commentary:

The EGX30 failed to continue the early rally as selling pressure dominated in most of the stocks pulling the index back closing slightly negative approaching our support zone 11500-11450.

It's very important to sustain above the mentioned support zone to keep the upside potential.

Yet, we recommend to react on every stock separately either that are trading near their supports or that managed to confirm breakout. Always keep close stops placed and respected to reduce market risk.

**Commercial international bank (COMI.CA):**

Prices remained narrowly flat as balanced trading still dominates closing slightly positive keeping levels unchanged. Yet, reaching the coming resistance level 63.00 is expected, increasing volumes in rallies is needed to prove real buying strength which will lead to clear the mentioned resistance. New trades should wait for more confirmation while existing ones are advised to keep protective stop placed below 60.00.

Support levels: 60.00, 58.50  
Resistance levels: 63.00, 64.50

**Hermes Holding (HRHO.CA):**

Prices closed slightly positive after quiet trading performance leaving everything in place. Yet, levels are the same and so for our outlook. As we said it is very important to defend the mentioned zone to prove that buyers are still in control. New target zone within 16.60-17.10 where we believe it represents strong retracement level where may use trade on. Close stops should always be placed and respected to protect the downside.

Support levels: 15.55-15.25, 14.60  
Resistance levels: 16.60-17.10, 17.80

**El-Ezz steel rebar's' (ESRS.CA):**

Prices remained narrowly flat closing slightly positive within the same range so levels are unchanged and so for our outlook. As we said, we may close our sold positions after the violation of 10.60 bearing in mind that any violation to the mentioned support will keep prices under further stress and lower levels will be expected.

Support levels: 9.80, 8.90  
Resistance levels: 10.60, 10.90
