Market Commentary:

The EGX30 traded narrowly flat after quiet balanced performance took place in most of the stocks closing slightly negative. The decline is considered only a correction to the previous rally where we believe we can buy gradually on bearing in mind that the mentioned support zone should be respected. As we said, by clearing the mentioned zone the medium term trend now is up setting new target levels at 11850 & 12200. New positions now are safely be opened while existing positions are advised to use trailing stop strategy and may add to their positions using the mentioned target levels to trade gradually on.

**Commercial international bank (COMI.CA):**

Prices witnessed a slight downward move closing slightly below the support level 63.00 which still needs confirmation specially that trading volumes significantly decreased so everything is considered in place.

Yet our view is still positive as technical indicators remained bullish suggesting that the next target and resistance will be reached where we may continue trading on.

Protective stop should be placed below 60.00.

Support levels: 63.00, 60.00

Resistance levels: 64.50, 66.00

**Hermes Holding (HRHO.CA):**

Prices traded narrowly flat closing slightly positive leaving our outlook the same. Notice that it is very important to defend the mentioned zone to prove that buyers are still in control.

New target zone within 16.60-17.10 where we believe it represents strong retracement level where may use trade on.

Close stops should always be placed and respected to protect the downside.

Support levels: 15.55-15.25, 14.60

Resistance levels: 16.60-17.10, 17.80

**El-Ezz steel rebar's' (ESRS.CA):**

Prices remained flat closing slightly positive leaving levels the same and so for our outlook. Our coming support now is 10.60 which represents the short term stop loss level so it's highly recommended to watch.

Notice that any break to the mentioned resistance will confirm that buyers are still in control and will lead to further extension to 12.45 where we may continue trading on.

Trailing stop should always be used to protect profits.

Support levels: 10.60, 9.80

Resistance levels: 10.90, 11.60
