Market Commentary:

The EGX30 remained in red closing near the low above our mentioned support zone leaving levels unchanged and so for our outlook. We recommend to watch current levels very carefully as the mentioned level represents medium term turning point either turning the medium term trend into up or keeping it flat. Trading should be very selective and conservative keeping close stops placed and respected to reduce market risk. Notice that the mentioned support zone should be respected in any decline as any violation to it will indicate that bears are in control further decline will follow.

Commercial international bank (COMI.CA):

Prices failed to defend the support level 52.80 as selling pressure dominated turning it into resistance. The decline extended lower trading slightly below our second support level 51.60 managing to rebound from.

Our short term trend now is considered flat within 52.80 & 51.60 where we may conservatively trade.

Support levels: 51.60, 50.00
Resistance levels: 52.80, 57.70

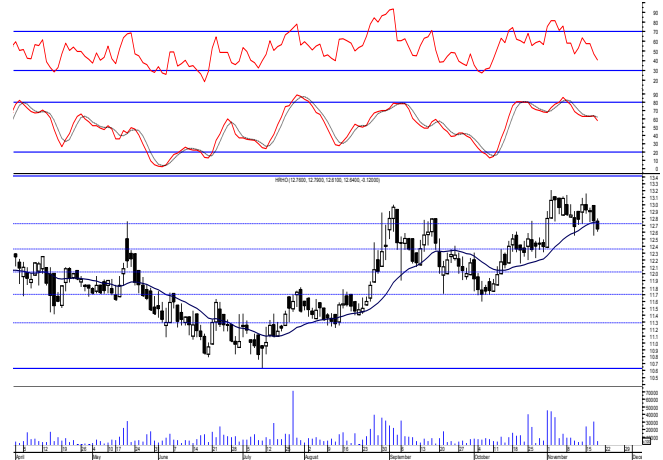

Hermes Holding (HRHO.CA):

Prices closed slightly negative within our mentioned support zone after quiet balanced trading performance dominated most of the session keeping levels the same and so for our outlook.

Existing positions are advised to hold keeping stops placed and respected below 12.10 as any decline below will give back the hand to selling party.

Support levels: (12-75-12.60), 12.10
Resistance levels: 13.40, 14.25

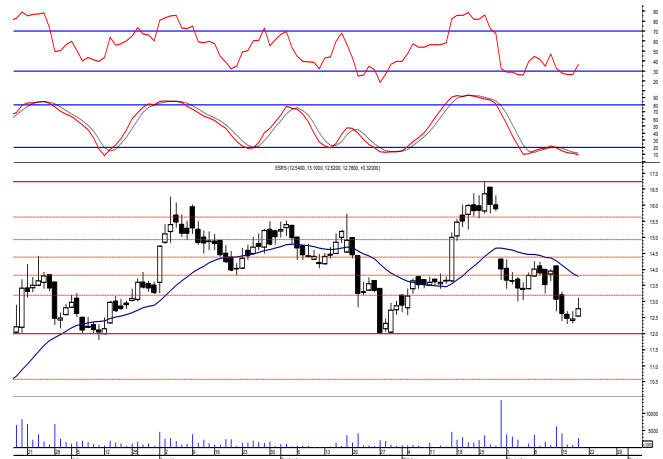

El-Ezz steel rebar's' (ESRS.CA):

Prices traded quietly flat as balanced trading performance dominated closing slightly positive leaving everything in place.

As we said, bears gained back the near term technical advantage and therefore the upside potential will be invalid so stay heads up.

We recommend staying on cash till a confirmed buy signal is clearly evident.

Support levels: 12.00, 10.55
Resistance levels: 13.20, 13.80
