Market Commentary:

The EGX30 witnessed an upward move head of trading in an attempt to clear our important resistance level 10680 but selling pressure took place remained the upper hand keeping the close below keeping everything in place.

Trading volumes remained weak so it's highly recommended current levels very carefully as bullish sentiment will only be confirmed by sustaining above the mentioned level. We recommend now staying on cash till a clear reentry signal is clearly given specially that the market risk was elevated by breaking below 10680. Conservative traders may sell partially as the market climbs and stay on cash waiting for a reentry clear signal.

Commercial international bank (COMI.CA):

Prices witnessed a downward move violating the support level 43.50 turning it into resistance as selling pressure remained in control closing in red near the low.

Our levels are the same 43.50 and 42.30 we recommend to stay on cash & wait for confirmed buy signal so that we can react safely on.

Any existing positions should always keep stops placed and respected

Support levels: 42.30, 40.90
Resistance levels: 43.50, 44.70

Hermes Holding (HRHO.CA):

Prices remained quietly flat as balanced performance dominated closing slightly negative keeping levels unchanged and so for our outlook.

Existing positions are advised to hold keeping stops placed and respected below 11.25 as any decline below will give back the hand to selling party.

Support levels: 12.10, 11.70
Resistance levels: (12.60-12.75), (13.25-13.40)

El-Ezz steel rebar's' (ESRS.CA):

Prices remained hovering above our support level 13.40 closing slightly below but still needs confirmation so levels are considered the same and so for our outlook.

Notice that confirmation leads to further decline to 12.30 while managing to defend keeps the chance of at least a counter move to take place. New trades are advised to wait for a confirmed buy signal to react safely on.

Support levels: 13.40, 12.30
Resistance levels: (14.40-14.65), 16.00
