Market Commentary:

The EGX30 traded the same, an upward move ahead of the session before selling pressure dominates giving back all the gains. The index closed in green after the auction near the high but still needs confirmation for breaking 11900 so everything remains the same. Yet, the rally is still expected to resume to the second target level where we may use for short term trading. As we said, medium term targets now 12250 & 12850, while short term, targets will be 11900 & 12070. We recommend to be conservative and very selective keeping close stops placed and respected to reduce market risk. Notice that any retreating below 11675 will put the market under stress leading to further decline due to lack of confidence so stay alerted and disciplined.

Commercial international bank (COMI.CA):

Prices closed slightly negative after quiet balanced trading performance keeping levels unchanged and so for our outlook. Further climbing is expected which will likely reach the coming resistance 54.15 but the support level 52.80 should be respected in any pullback to keep the positive view valid. possible trades could be tried on current levels, bearing in mind that clearing the previous reached high will confirm the existing bullish sentiment setting new target levels.

Support levels: 52.80, 51.60
Resistance levels: 54.15, 56.00

Hermes Holding (HRHO.CA):

Prices kept on quiet balanced trading performance closing with no change keeping everything in place. Further climbing will likely follow to the previous reached high where we may use the range for short term trading. We recommended to trade on the mentioned target, now we recommend to stay on cash till a confirmed buy signal is clear. Held positions are advised to keep protective stop placed and respected below 14.45.

Support levels: 14.45, 13.40
Resistance levels: 15.25, 16.35

El-Ezz steel rebar's' (ESRS.CA):

Prices remained under stress trading mostly below the support level 13.80 before rebounding process takes place closing slightly below which still needs confirmation. As we said, being able to defend will likely give a chance for a quick trades to be tried. Yet, it's recommended to stay on cash and wait for a confirmed buy signal to react safely on.

Support levels: 13.80, 13.00
Resistance levels: 14.50, 15.65
