Market Commentary:

The EGX30 remained flat closing slightly positive within the same range keeping everything in place. Yet, the decline is considered only a correction to the previous rally where we believe we can buy gradually on bearing in mind that the mentioned support zone should be respected. As we said, by clearing the mentioned zone the medium term trend now is up setting new target levels at 11850 & 12200. New positions now may safely be opened while existing positions are advised to use trailing stop strategy and may add to their positions using the mentioned target levels to trade gradually on.

**Commercial international bank (COMI.CA):**

Prices witnessed a downward move trading mostly below the support level 63.00 and closed slightly below. Yet, confirmation is still needed so levels are considered the same and so for our outlook.

Yet our view is still positive as technical indicators remained bullish suggesting that the next target and resistance will be reached where we may continue trading on. Protective stop should be placed below 60.00.

Support levels: 63.00, 60.00  
Resistance levels: 64.50, 66.00

**Hermes Holding (HRHO.CA):**

Prices closed slightly positive after failing to continue the early rally attempt leaving our outlook the same. Notice that it is very important to defend the mentioned zone to prove that buyers are still in control.

New target zone within 16.60-17.10 where we believe it represents strong retracement level where may use trade on. Close stops should always be placed and respected to protect the downside.

Support levels: 15.55-15.25, 14.60  
Resistance levels: 16.60-17.10, 17.80

**El-Ezz steel rebar's' (ESRS.CA):**

Prices traded quietly flat closing in green slightly above 10.90 which still needs confirmation so everything is considered in place.

Notice that any break to the mentioned resistance will confirm that buyers are still in control and will lead to further extension to 12.45 where we may continue trading on. Trailing stop should always be used to protect profits.

Support levels: 10.60, 9.80  
Resistance levels: 10.90, 11.60
