Market Commentary:

The EGX30 traded quietly flat closing slightly positive after mixed performance took place in most of the stocks keeping levels the same and so for our outlook.

As we said, the upside breakout expectations now is fulfilled and our targets are 11430 and 11675 where we believe that the second mentioned level will be reached.

Notice that 11675 acts as major resistance level where we recommend to watch carefully. New positions may be tried on current levels keeping protective stop placed below 11200.

Existing positions should always keep close stops placed and respected.

Commercial international bank (COMI.CA):

Prices remained flat closing slightly negative as balanced trading performance dominated. Defending the support level 46.65 keeps the view positive and will lead to climbing to the old targets at 48.80 & 51.60.

Trailing stop strategy should be followed to protect profits and reduce risk

Support levels: 46.65, 44.70
Resistance levels: 48.80, 51.60

Hermes Holding (HRHO.CA):

Prices witnessed an upward move managing to confirm clearing the mentioned resistance zone where as we said we may open new positions using the next mentioned zone to trade on.

Existing positions are advised to hold keeping stops placed and respected below 11.25 as any decline below will give back the hand to selling party.

Support levels: 12.75-1260), 12.10
Resistance levels: (13.25-13.40), 14.25

El-Ezz steel rebar's' (ESRS.CA):

Prices witnessed a slight upward move and still expected to continue to the coming resistance.

We recommend watching the mentioned zone as bullish sentiment will remain intact which as we said will likely push prices higher to retest the previous reached high 16.25 where we may use the range for quick trading.

Protective stop should be placed below 14.40.

Support levels: (14.65-14.40), 13.40
Resistance levels: 16.00, 17.70
