Market Commentary:

The EGX30 remained narrowly flat closing slightly positive below the strong resistance zone 11450-11500 after testing 11500. Trading volumes remained in favor of the buying party suggesting another upward move in an attempt to clear so as we said we should watch very carefully Short term trades may conservatively be opened above the mentioned level. Existing positions are advised to hold and may safely add and may use the coming mentioned zone to trade on bearing in mind that breaking it will turn the intermediate term trend from flat to up setting new target levels

Commercial international bank (COMI.CA):

Prices closed above the support level 63.00 closing slightly positive so everything is in place. As we said, our coming resistance levels 64.50 & 66.50 is now expected where may use them to trade gradually on. Protective stop should be placed below 60.00.

Support levels: 63.00, 60.00
Resistance levels: 64.50, 66.00

Hermes Holding (HRHO.CA):

Prices remained flat closing slightly on the upper boundary of the support zone 15.55-15.25 where as we said we should watch very carefully keeping positive view intact. Notice that it is very important to defend the mentioned zone to prove that buyers are still in control. New target zone within 16.60-17.10 where we believe it represents strong retracement level where may use trade on. Close stops should always be placed and respected to protect the downside.

Support levels: 15.55-15.25, 14.60
Resistance levels: 16.60-17.10, 17.80

El-Ezz steel rebar's' (ESRS.CA):

Prices witnessed another downward move retesting the support level 10.90 closing slightly below so everything is considered in place. Notice that any break to the mentioned resistance will confirm that buyers are still in control and will lead to further extension to 12.45 where we may continue trading on. Trailing stop should always be used to protect profits.

Support levels: 10.90, 9.80
Resistance levels: 11.60, 12.45
