Market Commentary:

The EGX30 remained narrowly flat closing slightly negative as balanced trading performance dominated keeping everything in place. Yet, the decline is considered only a correction to the previous rally where we believe we can buy gradually on bearing in mind that the mentioned support zone should be respected. As we said, by clearing the mentioned zone the medium term trend now is up setting new target levels at 11850 & 12200. New positions now may safely be opened while existing positions are advised to use trailing stop strategy and may add to their positions using the mentioned target levels to trade gradually on.

Commercial international bank (COMI.CA):

Prices remained fluctuating around the support level 63.00 closing slightly below which still needs confirmation so levels are unchanged and so for our outlook. Yet our view is still positive as technical indicators remained bullish suggesting that the next target and resistance will be reached where we may continue trading on. Protective stop should be placed below 60.00.

Support levels: 63.00, 60.00
Resistance levels: 64.50, 66.00

Hermes Holding (HRHO.CA):

Prices closed slightly negative within the support zone after quiet trading performance leaving our outlook the same. Notice that it is very important to defend the mentioned zone to prove that buyers are still in control. New target zone within 16.60-17.10 where we believe it represents strong retracement level where may use trade on. Close stops should always be placed and respected to protect the downside.

Support levels: 15.55-15.25, 14.60
Resistance levels: 16.60-17.10, 17.80

El-Ezz steel rebar's' (ESRS.CA):

Prices witnessed another downward move closing below the support level 10.60 turning it into resistance. As we said, confirming below the mentioned support triggers an opposite trade opportunity where we can sell and buy near the next support.

Support levels: 9.80, 8.90
Resistance levels: 10.60, 10.90
