Market Commentary:

The EGX30 witnessed an upward move reaching our expected mentioned resistance zone and closed within near the high suggesting further climbing near the zone's upper boundary where we should watch.

Short term trades may conservatively be opened above the mentioned level. Any pullback from current levels will trigger our sell signal and to buy near the supports. We overall recommend conservative traders to stay on cash till a confirmed buy signal is evident. Risk takers who decides holding their positions are advised to keep close stops placed and respected.

Commercial international bank (COMI.CA):

Prices managed to rebound from the support level 58.50 which is considered positive, further climbing near the resistance level 60.00 is expected where as we said before by breaking it buyers will confirm their strength.

Watching the mentioned support is highly recommended. We still recommend traded positions to stay on cash and wait for a confirmed buy signal to react safely on.

While held positions are advised to activate their stops and stay on cash.

Support levels: 58.50, 56.20
Resistance levels: 60.00, 63.00

Hermes Holding (HRHO.CA):

Prices continued higher approaching the resistance zone 15.25-15.55 as we expected. The rally was fueled by increasing volumes confirming buying strength increasing the breakout potential.

Breaking the mentioned zone will set new target zone within 16.60-17.10 where we believe it represents strong retracement level where may use trade on.

Close stops should always be placed and respected to protect the downside.

Support levels: 14.60, 14.10
Resistance levels: 15.25-15.55, 16.60-17.10

El-Ezz steel rebar's' (ESRS.CA):

Prices climbed higher reaching the resistance level 11.60 closing slightly above. Second day close will confirm that buyers are still able to push prices higher where as we said will lead to further extension to 12.45 where we may continue trading on. Trailing stop should always be used to protect profits.

Support levels: 10.90, 9.80
Resistance levels: 11.60, 12.45
