Market Commentary:

The EGX30 witnessed another failure attempt to clear the resistance zone 11200-11320 after trading within as selling pressure remained in control closing the index below in negative territory leaving levels unchanged and so for our outlook. Yet, we recommend to watch current levels very carefully where as we said clearing the mentioned zone only will indicate that bullish party gained the near term technical advantage which will lead to further climbing to the major resistance level 11675.

Trading should be very conservative on current levels keeping close stops placed and respected to reduce market risk

Commercial international bank (COMI.CA):

Prices witnessed an upward move managing to clear the resistance level 47.80 turning it into support. Despite breaking to a new 8 months high but we still recommend waiting for a confirmed breakout to the prominent resistance level 48.80 where therefore our targets will be 49.55 & 51.60. On the other hand failure to clear it will probably lead to a correction near the mentioned supports.

Support levels: 47.80, 46.40
Resistance levels: 48.80, 49.55

Hermes Holding (HRHO.CA):

Prices remained quietly flat closing slightly positive leaving everything in place. Bear in mind that clearing the mentioned zone will lead to further climbing to 13.40. Existing positions are advised to hold keeping stops placed and respected below 11.25 as any decline below will give back the hand to selling party.

Support levels: 12.10, 11.70
Resistance levels: (12.60-12.75), 13.40

El-Ezz steel rebar's' (ESRS.CA):

Prices closed slightly positive after quiet balanced trading performance leaving everything in place. Yet, as we said the strong potential to clear the mentioned level is still valid and therefore setting bullish target levels at 17.55 & 18.90. Our levels are still the same 16.25 and 15.20, prices may fluctuate within before the breakout where we may trade conservatively within.

Support levels: 15.20, 14.50
Resistance levels: 16.25, 17.55
